SUMMARY

Aspiring to forward more sustainable solutions and technologies for a more inclusive future. Detail-oriented and highly motivated Electrical Engineer with a track record of completing construction-related projects. Reputation for collaborating effectively with people from diverse backgrounds and levels. Demonstrated strengths include:

- Project Management (end-to-end)
- Quality Engineering (QS, QA)
- Customer Relationship Management
- Communication Skills

PROFESSIONAL HISTORY

Jones Lang LaSalle (Philippines), Inc. – Assistant Project Manager
December 2017 – Present

- As an APM, I am responsible for coordinating with all stakeholders (Designers, Consultants, Contractors, and other Vendors) in implementing the activities of each project to ensure that cost, schedule, document control and quality standards of evolving real estate industry are met.
- As each and every developing project requires at least a working knowledge of every trade in engineering, an APM such as I guarantees to be up to date with the latest standards and codes of the industry, and can confidently address any concern that may arise on site.

ArchEn Technologies, Inc. – Project Engineer
June 2015 – November 2017

- ArchEn is the engineering arm of San Miguel Corporation, one of the country's largest conglomerates. As our proponent, Petron Corporation, continues to expand its reaches, our department got me on board as Project Engineer to handle projects that require technical skills.
- Together with different Petron groups, I managed projects from their conceptualization to completion, amounting to Php 300 million on my first year, all while learning from different engineering fields in the Oil & Gas industry.

EDUCATION & TRAINING

Python OOP – LinkedIn Learning, Automate the Boring Stuff, Udemy – February, April, June 2020
Project Management – JLL MyDevelopment Training – January 2020
People Management – JLL MyDevelopment Training – March 2020
Construction Safety and Health Course (40 hrs.) – JLL MyDevelopment Training – September 2019
Registered Electrical Engineer – Philippine Regulatory Commission – September 2014
BSc Electrical Engineering – Technological University of the Philippines (Manila) – March 2014
Academic Scholar – Department of Science and Technology Science Education Institute – SY 2009-2014
